Workshop on School Choice and Matching Markets

Belfast, April 25-26, 2022.

In recent years, there has been a great deal of research activity to study and design systems to assign students to schools. Funded by the ESRC and the ZEW – Leibniz Centre for European Economic Research, we are happy to organize a workshop to discuss the latest theoretical and empirical developments in the field.

We are happy to announce that Professor Aytek Erdil will deliver a keynote presentation on a modern design for university admissions in the UK.

#### **Submission**

If you would like to present a paper, please email a completed paper to [school.choice@qub.ac.uk](mailto:school.choice@qub.ac.uk). Both theoretical and empirical papers on school choice and matching markets are welcome. We welcome interdisciplinary papers too.

We will cover flights and accommodation for presenters.

#### **Deadline**

The deadline for paper submission is January 31st AOE. We will notify acceptance decisions by February 4th.

#### **Registration**

Everybody is welcome to attend the workshop but must register first. Registration is free and includes lunches and coffee breaks. Registration will open on February 4th 2022.

#### **Organizers**

Josue Ortega and Thilo Klein
